

Reference: FOI 33544 BUCKS 14Y

Subject: Cervical Cancer

I can confirm that the CCG does not hold the information requested; please see responses below:

QUESTION	RESPONSE
<p>I would love to find out the following information by region, however if the demand is too high, finding it out nationally would be fine.</p>	
<p>I would like to find out about these statistics within the last 10 years from JANUARY 2009- JANUARY 2019.</p>	
<p>1. How many women under the age of 25:</p> <ul style="list-style-type: none"> • Have been alerted that abnormal cells have been detected? • Have been diagnosed with cervical cancer? • With a family history of cervical cancer have been offered smear tests? • Have died with cervical cancer? 	<p>This information is not held by the CCG. NHS England and Public Health may be able to assist with your request. I have provided links for your convenience:</p> <p>NHS England</p> <p>Public Health</p>
<p>2. How many women aged between 25-30:</p> <ul style="list-style-type: none"> • Have been diagnosed? • How many women have died in the last 10 years with 	

cervical cancer?	
------------------	--

The information provided in this response is accurate as of 2 December 2019, and has been authorised for release by Robert Majilton, Deputy Chief Officer and Director of Sustainability & Transformation for NHS Buckinghamshire CCG.
